## Summary

---

Motivated and passionate Full Stack Developer with a strong foundation in web development and hands-on experience in building projects. Proficient in the MERN stack and eager to deepen expertise in backend technologies such as Node.js and content management systems like WordPress. Committed to contributing to impactful real-world projects while continuously learning from experienced professionals and adapting to emerging technology.

---

BCA (Full Stack Development), Dev Bhoomi Uttarakhand University (Pursuing)

Aug 2023 – Aug 2026  
Dehradun, India

## Project Experience

---

### 1. Recipe App (Figma)

Built a recipe-sharing mobile app where users can upload, browse, and filter recipes by cuisine type, and also upload or run kitchen regarding courses etc.

Tech Used: Figma (prototype).

Features: User post upload, category-based filtering, and clean UI.

### 2. Dictionary web (VS code)

A simple dictionary app that uses a free API to fetch word definitions and meanings. Designed a clean interface and handled state management using the Provider package.

Tech Used: Vs Code, REST API, Provider

Features: Real-time word search, error handling, responsive layout.

### 3. Blinkit UI Clone (Vs code)

Recreated the Blinkit grocery app UI with a clean on to layout, navigation, and design. Implemented features like buttons, navigation, product cards, and horizontal scrolling.

Tech Used: VS code, Figma.

Features: Buttons, Navigation Bar, Card View, Scroll View, responsive design.

### 4. Yoga School Website (WordPress)

Developed a professional website for a yoga school with an online booking system and mobile-friendly design.

Tech Used: WordPress, Elementor, Custom Plugins.

Features: Booking system, contact form, responsive layout, SEO-friendly
